

SONOSAX IN THE MOVIES

Mr Stuart Wilson, British sound recordist, has recently acquired a new **SONOSAX SX-STIOR** mixer with integrated 8 track Digital Recorder, which is now on the set of the next "Harry Potter" film. The **SONOSAX SX-ST** series is the most refined mixer ever made for on location recording. Its versatility and its design allow customization to ultimately fulfil the users' requirements.

Television Suisse Romande (Swiss television in French language) has just received five more **SONOSAX SX42** mixers of the new "Dark-Grey" series (see also below) for their regional news and documentaries. With this new acquisition, there are more than twenty **SX42** mixers operated daily by the TSR.

SONOSAX SX42 NEW DARK-GREY VERSION- Looks Great !

A new series of the 4 channel ENG mixer - SONOSAX SX42 has been manufactured and is now available. Its new micro finished surface combined with the "MINIR82 dark-grey" colour and the legendary Swiss mechanical engraving, results in the SONOSAX SX42 looking better than ever!

With the increasing popularity of modern cameras with digital inputs, such as the XDCAM, SONOSAX recognise the growing demand for a high quality professional ENG mixer with digital outputs. Thus, thanks to its optional Single or Dual A/D converters the SX42 offers up to 4 digital outputs (2 x AES out) for digital connection to any of these new cameras.

SONOSAX SX-M32 PRICING INFORMATION

The new 3 channel ENG/EFP mixer with analogue and digital outputs will be released in April. The development is coming to an end and the manufacturing will start within the next few weeks. The design of SX-M32 has been a real challenge, as the goal was to offer a mixer at a very competitive price without compromising on, quality and sonic performance.

The price of the SONOSAX SX-M32 starts at CHF 2'600.00 (EUR 1'590.00 / USD 2'480.00). Additional pricing information for the options and accessories will follow within the next few weeks.

SONOSAX SX-R4 PRICING INFORMATION

The eagerly awaited SONOSAX SX-R4 Recorder is to be launched within next few weeks. The development of the SX-R4 was also a big challenge for the entire SONOSAX team - putting together all the required features in a such small and lightweight format, lowering the power consumption as much as possible and yet keeping all of the legendary SONOSAX qualities of reliability and sonic performance was not an easy task !

The price of the SONOSAX SX-R4 starts at CHF 5'850.00 (EUR 3'650.00 / USD 5'570.00). Additional pricing information for the options and accessories will follow shortly.
