

## SONOSAX introduces 64Gb SSD Drives for all SONOSAX Recorders

After deep studies, significant numbers of technical tests in our laboratory and practical tests on location in real condition, we are pleased to announce that a 64Gb SSD Drives is now available for all SONOSAX recorders: the MINIR82, the SX-R4 and the internal recorder of the SONOSAX SX-ST8DR mixer.

This SSD drive is fully compatible with all current HD Drive in terms of size and connectivity and can be either installed at factory as an option on new recorders or it can be retrofitted on existing SONOSAX recorder as an upgrade.

### Important notice:

Replacing a HD drive by the new SSD drive in an existing unit can only be done by a qualified technician, thus please contact your local SONOSAX distributor for replacement a drive.

Any inappropriate intervention voids the warranty.

Replacement SSD drives will be supplied to distributors fully tested and fully formatted. Installing any other brand of drive may lead to malfunction and will not be covered by the warranty.

### CONGRATULATIONS to

Tony Johnson, New Zealand

for winning the Broadcast Film Critics and for his nomination at the Oscars as Best Sound mixer on the film AVATAR.

*"The mixer was fantastic for AVATAR as I needed so many output options and would be one of only a couple of mixers that could do the job", said Tony Johnson about his SONOSAX ST8D mixer.*

Tony Johnson shares the award and the nominations at the OSCAR with Christopher Boyes, Gary Summers and Andy Nelson.

### CONGRATULATIONS to

Pierre Excoffier, Bruno Tarrière  
and Sélim Azzazi

Winners of the **CESAR 2010** for the "Best Sound".

Pierre Excoffier was using a renewed **SONOSAX SX-S** for this movie.

### CONGRATULATIONS to

Peter J. Devlin, U.S.A.

for his nomination at the Oscars as Best Sound mixer on the film STAR TREK. Shared with Anna Behlmer, Andy Nelson

Peter J Devlin is another enthusiastic user of the **SONOSAX SX-ST8D** mixer.
