

## SONOSAX recorders Firmware 4.3 released

We are pleased to announce the release of the latest firmware version 4.3 for all SONOSAX recorders.

This new version corrects several bugs and it improves the recording capability on the CF Card.

The firmware is available for immediate download on our website; we recommend all users to up-date their SONOSAX recorder at their earliest convenience.

**CAUTION:** Do not forget to back-up your audio files before updating the firmware. After every update we recommend reformatting the internal drive and your CF cards.

## SONOSAX ADN-2A

Two ways active loudspeaker

The pleasure of high quality sound  
in the comfort of your home

Result of a demanding and uncompromising process, this active 2-way loudspeaker is the outcome of a close collaboration between Antoine Cahen, industrial designer with an international reputation, and Jacques Sax founder of SONOSAX.

Initially developed for the consumer market, the sound quality of the **ADN-2A** speaker also makes it a high precision near-field monitoring for professional use in music or broadcasting studios, control room, OB van, etc.

The shapes of its compact enclosure (25 x 25 x 25 cm) has been developed so that it can be placed at two different angles and thus easily adapt to the layout of your home or your studio. Regardless of its placement the **ADN-2A** will reconstitute a perfect stereo image.

The housing is made in melamine, a very dense and heavy material having excellent acoustic characteristics.

Amplified by two power stages - 80 Watts for the bass and 40 Watts for the trebles - the loudspeaker provides a wide frequency response with an impressive dynamic range.

The active filters and the amplifiers were specially designed to match with the transducers and the volume of the enclosure at the highest precision.

As an active speaker it can be connected to any conventional audio source, but also to smart phones, tablets or computers.

## In this issue:

ADN-2A new active loudspeakers **P.1**

Firmware version 4.3 released **P.1**

SONOSAX SX-ST price down **P.2**

SD to CF card adapter **P.2**

## SONOSAX SX-ST & SX-VT

## Price Down

[www.sonosax.ch](http://www.sonosax.ch)

Visit our website and see what's new at SONOSAX

With nearly 200 consoles sold, the **SONOSAX SX-ST** has acquired a worldwide reputation for its very high sound quality and versatility. Over the years, its reliability has been proven due to manufacturing quality without compromise.

Taking advantage of favorable exchange rates and of the amortization of the development costs we are pleased to announce a **significant drop in prices of about 20%** on the **SONOSAX SX-ST** and **SX-VT** series.

Based on a modular concept, the **SONOSAX SX-ST** can be configured to suit the specific needs of each user, whether for on location recording of feature films (used during thousands of shootings such as James Bond, Harry Potter's, Amours and many awarded movies), live transmissions or high quality recording of music.

From July 2013, only the Compact version without battery tray (as illustrated) is available; a few battery trays remain available on special request.

Three frame sizes are offered:

- **SONOSAX SX-ST8D-C:** Compact housing for max 8 input modules and 1 digital module.
- **SONOSAX SX-ST10-C:** Compact housing for max 10 modules; for ex. 10 input modules or 9 input modules and 1 digital module.
- **SONOSAX SX-ST12-C:** Compact housing for max 12 modules; for ex. 12 input modules or 11 input modules and 1 digital module.
- Available modules: Mono Mic/Line input / Stereo line input  
Digital module comprising:  
8x A/D converters  
optional 8 tracks recorder with the new touch screen remote control.

## SONOSAX SD to CF Card adapter

Anticipating CompactFlash card obsolescence, SONOSAX offers a SD to CF card adapter.

This adapter has been specially optimized for the PIO mode used in all SONOSAX recorders. It accepts SDHC cards of any capacity. SD cards being much cheaper than CF Cards, this adapter will also reduce your production costs.

Available in stock at Fr 45.00 / Euro 36.00 / USD 48.00
