SONOSAX SX-AD8+ and SX-RC8+ ready for shipping

SONOSAX team is pleased to announce the SX-AD8+ and SX-RC8+ are now ready for shipping.

The 8 channels mic/line preamplifier SONOSAX SX-AD8+ uses the same preamplifier technology and dual A/D system as on the SONOSAX SX-R4+ recorder, offering an overall dynamic range of 135dB. Perfect companion to the SX-R4+, the SX-AD8+ can also be used as **stand alone** preamplifier.

The SONOSAX SX-RC8+ extends the mixing facilities of the SX-R4+ by means of 8 rotary faders; each fader knob has a push on switch to activate or call specific user selectable function. It also offers a break-out box for the 4x AES inputs of the recorder, a power distribution on 5x Hirose 4pin and a Slate/Com microphone

Meet SONOSAX on exhibitions
